Feedback for the exam Math69102/49102 (June 2015): Stochastic Modelling in Finance

Overall, the exam went well. The average is a little too high. Here are some comments.

Q1. It went well.

Q2. It went well with 2(i). However, most of the students gave an incomplete proof for 2(ii).

Q3. It went well.

Q4. The majority managed to prove 4(i). Very few found the correct answer for 4(ii).

Q5. It went well.

Q6. 6(i) went well. Almost nobody managed to solve 6(ii).

Q7. It went well.
